Array Networks Security Advisory: Remote Injection Vulnerability in Array VPN Product (ID-119617).

(V2.0)

Revision History

Revision	Date	Description
V1.0	April 25, 2022	Initial Publication.
V1.1	September 14, 2022	Updated the workaround and partial fix in 9.4.0.466.
V2.0	September 17, 2022	Modify affected versions and remediation.
V2.1	September 30, 2022	Release 9.4.0.469 with the fix is available.

Overview

Array AG/vxAG command injection vulnerability ID-119617 is a web security vulnerability that allows an attacker to execute commands on the SSL VPN gateway with parameter injection attacks without authentication. The product can be exploited through the vulnerable function of reusing server connections and the long-living connection.

Severity: Critical

Impact

The vulnerability has NO impact on AVX, APV, ASF and AG/vxAG (running ArrayOS AG 10.x versions) series products.

For Array AG/vxAG series products running ArrayOS AG 9.x versions, attackers may exploit this vulnerability to elevate their privileges and then control the system.

Status

The following table lists the affected product and software versions. You can use this table to check whether your Array products are affected by this vulnerability.

Product	Affected Versions	Affected Features/Modules
AG/vxAG	ArrayOS AG 9.4.0.466 and earlier versions	System

![Array logo]

Solution & Guidelines

For AG/vxAG Series products, a new ArrayOS release with the fix is available.

https://support.arraynetworks.net/prx/001/http/supportportal.arraynetworks.net/software/ag/ArrayOS-Rel_AG_9_4_0_469.array

Workaround

In the meantime, Array strongly recommends **upgrading** to the latest release 9.4.0.466 **and** apply the following commands to mitigate the vulnerability.

Apply the following global commands:

- CLI command: **config term**
- CLI command: **http serverconnreuse off**
- CLI command: **http serverpersist off**

Note: This could only be used as a short-term emergency fix. It cannot be used as a long-term solution as it may lead to serious system issues.

Any questions, please contact Array Networks Support via phone or e-mail.
